....

We got Joan up and running in Shaun's office within a few minutes. She was very appreciative. Libby is up and running. We've checked and double-checked since then, visiting the REOC, checking with Paula, and back up to the RA's office for Joan (notes below). Patrice has been giving us air cover and plugging us in where needed (she's awesome).

I left my mobile contact info with both Paula and Libby. We have our crew on standby for weekend support, and Roka is confirming his availability to respond quickly (and he lives close). All is well, but we'll continue to monitor. This is a big support day for us in light of the big issue in Durango, so we're playing offense today, not defense.

Let me know if you need anything this weekend.
